

Baver Ok

Digital Marketing · SEO · GEO · Content · Web

Zwijndrecht, Belgium | +32 470 42 48 36 | baverok@gmail.com | linkedin.com/in/baverok

PROFILE

Junior digital marketer with a technical foundation in web design, SEO, and GEO (Generative Engine Optimization). At Episto, I run on-page SEO, keyword-targeted content, and full-cycle WordPress site build and maintenance for client sites. On my own project (mirook.com) I've applied structured data, entity optimization, and technical SEO/GEO audits to improve visibility across both traditional and AI-powered search engines. Comfortable across content management, social media coordination, and performance reporting; quick to pick up new tools and platforms, and growing into analytics, e-commerce content management, and campaign support. Based in Zwijndrecht, next to Antwerp. Works in English and Turkish; Dutch: B1, currently taking classes to improve further.

CORE SKILLS

- SEO & GEO: on-page SEO, keyword research, technical SEO audits, structured data / JSON-LD schema, entity optimization, GEO & AEO (AI search visibility)
- Content & CMS: SEO blog & content writing, editorial content publishing, website content management, WordPress site building
- Web & build: WordPress, Elementor, Astra theme, responsive web design, Canva, AI-assisted content tools
- Analytics & reporting: Google Analytics, Google Search Console, SEMrush, Ahrefs, Google Ads
- Social: social media content & integration
- Languages: English (professional), Turkish (native), Dutch (B1)

EXPERIENCE

Junior Digital Marketer — Episto (Remote), 2026–present

- Own on-page SEO for client websites, from keyword research to publishing, improving organic visibility and search rankings
- Write keyword-targeted blog content for client websites to grow organic traffic
- Build and maintain client websites in WordPress using Elementor and the Astra theme, including content uploads and page updates
- Track site performance with SEMrush, Ahrefs, Google Analytics, Google Search Console, and Google Ads to guide SEO and content decisions

Warehouse & Logistics — Katoen Natie (Antwerp), 2025–2026

- Maintained accuracy and efficiency in a high-volume, fast-paced logistics environment

Front-End Developer — ViviDoctor (Belgium), 2018–2019

- Developed and optimized front-end features for a healthcare web application (AngularJS, JavaScript)

PROJECTS

mirook.com — Website Design, SEO & GEO (2025–present)

- Designed and built a multi-page WordPress site (Elementor, Astra) for a Belgian youth chess champion: full site structure, on-page SEO, and social media integration (Instagram/Facebook)
- Implemented structured data (JSON-LD schema, including SportsEvent and FAQPage), entity/knowledge-graph markup, and an llms.txt file to improve visibility across traditional and AI-powered search engines (GEO/AEO)

- Ran iterative technical SEO/GEO audits, measurably raising the site's overall search-health score

EDUCATION

- Karel de Grote Hogeschool, Antwerp — Coursework in Applied Computer Science (2022–2025)
- Celal Bayar University, Türkiye — Coursework in Computer Science (2012–2016)
- Diyarbakir Anatolian High School, Türkiye — High School Diploma (2012)
